The Worm is turning— are you aware of the problems with Carbendazime supplies? Don't miss out or be forced to pay hugely inflated prices. If you need to order supplies contact Material Matters (Agriguard, Ringer, Mascot Systemic etc. all catered for)

PREPARING FOR WINTER

The Salt debate

Salts are extremely damaging to the environment, animals, bordering plants and grass.

Salts works to temperatures of -5/-7 however when temperatures drop lower there are instances when salt will not melt ice.

Rock salt is often reddish in colour staining carpets and expensive flooring

Salts are corrosive to machinery

SOLUTION—EXCLUSIVE ICE MELT

- Environmentally friendly
- Effective to -11/-12
- Will not stain
- Does not corrode machinery

£9.50 per 10kg bag for Material Matters members (25% lower than any other offer in the market)

This **FAST ACTING, FREE FLOWING, EASY TO USE** granular compound eliminates ice and snow without any harmful effects.
